CAREER OBJECTIVE

Motivated Software Engineering undergraduate at Sunway University with a proven record of delivering results in both technology and large-scale events. Skilled in Java, Python and database systems, and quick to pick up new tools. Seeking a Software Engineering Internship where I can contribute from day one and grow into a high-impact engineer.

EDUCATION

Bachelor of Software Engineering (Hons) *Expected September 2027*
Sunway University, Bandar Sunway, Selangor
- CGPA: 3.65. Relevant coursework: Data Structures & Algorithms, OOP, Database Systems, Software Engineering Principles, Web Application Development

Foundation in Science and Technology *August 2023 – August 2024*
Sunway College, Bandar Sunway, Selangor
- CGPA: 3.48

Science Stream (Pure Science) *January 2018 – December 2022*
Sekolah Menengah Kebangsaan Agama Durian Guling, Marang, Terengganu
- Sijil Pelajaran Malaysia (SPM): 8 A's

LEADERSHIP & CAMPUS INVOLVEMENT

Student Helper (Event Support Team), Marketing Office *June 2026 – Present*
Sunway University
- Supported Bumiputera-focused student recruitment and marketing events, handling logistics, registration and participant engagement.
- Prepared promotional materials and event kits, and managed marketing inventory for smooth event operations.

Section Leader (Student Ambassador), Sunway Admission Office *January 2025 – December 2025*
Sunway University
- Coordinated visitor registration, seating and department allocation for open days hosting over 5,000 visitors.
- Liaised between visitors, lecturers and the registration team during consultation sessions; guided visitors on seminars and campus tours.

PROJECTS

StrayLink: Intelligent Stray Animal Rescue & Resource Management Platform *2025*
- Developed a digital platform business model for stray animal rescue, covering market needs, user segments, competitor gaps and financial strategy.

Pokémon Battle Game Engine (Java) *2024*
- Built an OOP battle engine using polymorphism, composition and encapsulation, with inventory, elemental damage multipliers, mystery box drops, an in-game shop economy and a Pokémon evolution algorithm.

Online Shopping Database Management System (Microsoft Access) *2023*
- Designed a relational schema with primary keys and table relationships to manage e-commerce data.

ACHIEVEMENTS

PETRONAS Education Sponsorship Program (PESP) Scholar *August 2023*
- Selected through a competitive process recognising academic excellence, leadership and future industry potential.

TECHNICAL SKILLS & CORE STRENGTHS

Languages: Java, Python, C, JavaScript, SQL
Web & Tools: HTML, CSS, basic React, MySQL, Microsoft Access, Git/GitHub, VS Code, Microsoft Excel, Microsoft Office Suite
Concepts: Data Structures & Algorithms, OOP, Database Design, Agile/Scrum basics
Strengths: Event coordination and logistics, stakeholder communication, public relations, budget management, time management, problem-solving and adaptability
